

## PAVEMENT MARKING REMOVAL

### QUICK-CHANGE BLADE SYSTEM

BL PCD Flat Tool

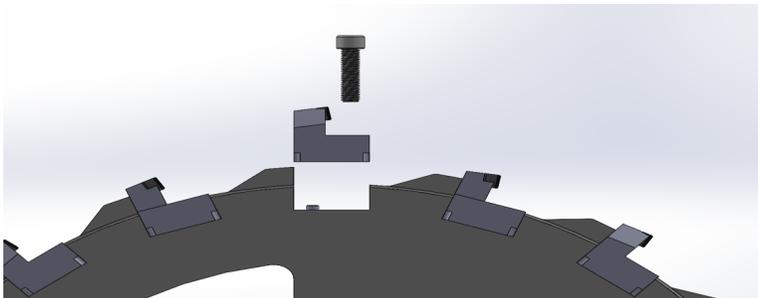

BL PCD Round Tool

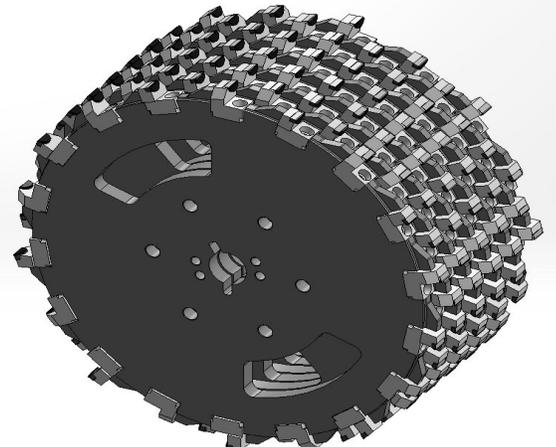

Keystone BL TOOLS are available for WELCO and DYNATECH blade systems

#### PCD Saw Blades Available for all Grooving and Grinding Machines

- Increase production by 4 times when compared to standard diamond saw blades and carbide flail bits
- Interchangeable PCD tools for different grinding applications
- 100% surface coverage with Keystone's BL flat tool eliminates the need for multiple passes while grooving and grinding
- Longest lasting and most versatile PCD tools on the market
- The most versatile blade system: Blades accept 3, 6, 9, or 18 tools

Keystone's patented Dowel-and-Pin System securely locks the tool to the blade; increasing the life of the blade and the tools

9" BL Blade tack for grooving machine
