

ROAD MILLING

BIG EASY QUICK-CHANGE SYSTEM

- Easy tool removal with access to the tool from the back of the block
- Easy insert removal , simply unscrew insert with standard tools, no hydraulic presses or special tools required
- Continuous wrap design with block to block welding technology ensures superior strength
- Taper on taper design provides a consistent locking depth, providing a consistently smooth surface pattern
- 60% larger than Keystone's EZ Screw Quick-Change System

Big Easy Insert

Big Easy Base
