

CRACK ROUTING ATTACHMENT

- Reduce material cost and increase production
- Route from .5" - 3.75" wide
- Accurate depth adjustment up to 2"
- Ejection system keep debris out of routed area
- Utilizes Keystone's RS Drum System

RS Quick-Change Drum System

- Vary cutting width by adding and removing tools
- Interchangeable bits for different cutting applications
- Increase production by 3X
- Minimize surface damage
- Reduce bit consumption with patented PCD tools
- No water required

RS 3/4" PCD Tool

RS 1" PCD Twin Tool

RS 5/8" PCD Tool

RS 3/4" Flat PCD Tool
