

MICRO-GRINDING ATTACHMENT

- Reduce material cost and increase production
- Grind width between .5” to 2.5”
- Accurate depth control up to 1.5”
- Ejection system keeps debris out of grind area
- Utilizes Keystone Engineering’s RS Quick-Change Drum System

RS Quick-Change Drum System

- Vary cutting width by adding and removing bits
- Interchangeable bits for different cutting applications
- Increase production up to 3X
- Minimize surface damage
- PDC diamond and carbide bit options
- No water required
