

### D540-875 Diamond Tool

Keystone Engineering's D540-875 PCD tool can be adapted to any quick-change drum system. The interchangeable insert allows operators to easily change from carbide tools to diamond tools.

D540-875 PCD Tool  
with Replaceable Wear  
Insert

Standard Carbide Tool  
with Replaceable Wear  
Insert

- Improve productivity by extending tool life by 40X
- Reduce fuel consumption by increasing cutting efficiency
- Reduce overall maintenance cost of the machine by significantly reducing vibration
- Carbide bolster extends the life of the diamond
- Creates a smoother and more uniform surface pattern
- Improve employee work environment by requiring fewer tool changes
