

EZ540-1.125 PCD TOOL HOLDER— KENNAMETAL KPF303

EZ303 Tool Holder with D540-875 PCD Tool and Replaceable Insert

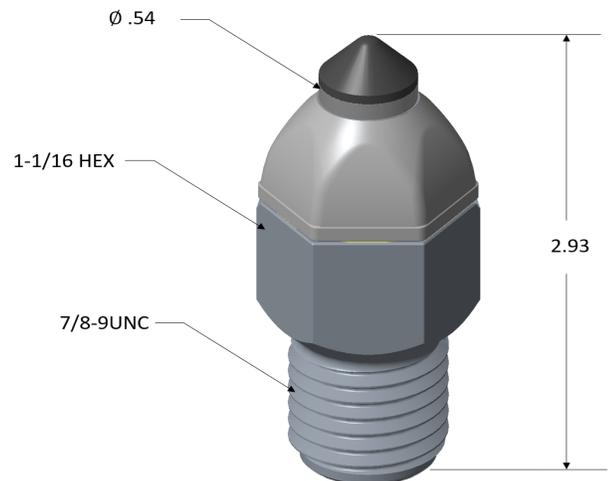

EZ303 Tool Holder with Standard Carbide Tool and Replaceable Insert

- Quickly change from PCD tools to carbide tools without having to change the drum or tool holder
- Replaceable steel insert significantly increases PCD tool life
- Keystone's patented threaded PCD tool is the only rigid mount three piece diamond system available: base block, tool holder, PCD tool
- Change PCD tools quickly with standard tools, no hydraulic presses or special tools required
- Taper on taper locking design provides a consistent locking depth, producing a smooth and uniform surface pattern

D540-875 PCD Tool

- Improve productivity by extending tool life by 40X
- Reduce fuel consumption by increasing cutting efficiency
- Reduce overall maintenance cost of the machine by significantly reducing vibration
- Carbide bolster extends the life of the diamond
- Creates a smoother and more uniform surface pattern
- Improve employee work environment by requiring fewer tool changes
