

### EZ540 PCD TOOL HOLDER– WIRTGEN TYPE 22

D540-875 PCD Tool with Replaceable Wear Insert

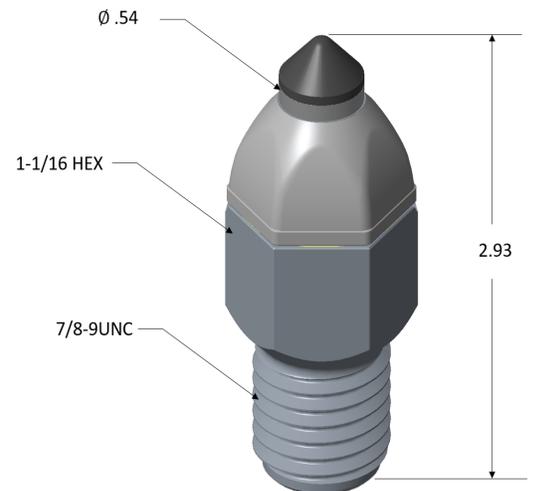

D540 PCD Tool

Standard Carbide Tool with Replaceable Wear Insert

- Quickly change from PCD tools to carbide tools without having to change the drum or tool holder
- Replaceable steel insert significantly increases PCD tool life
- Keystone's patented threaded PCD tool is the only rigid mount three piece diamond system available: base block, tool holder, PCD tool
- Change PCD tools quickly with standard tools, no hydraulic presses or special tools required
- Taper on taper locking design provides a consistent locking depth, producing a smooth and uniform surface pattern
- Right and left threaded PCD tools self tighten during the grinding process

### Keystone D540-875 PCD Tool

- Improve productivity by extending tool life by 40X
- Reduce fuel consumption by increasing cutting efficiency
- Reduce overall maintenance cost of the machine by significantly reducing vibration
- Carbide bolster extends the life of the diamond
- Creates a smoother and more uniform surface pattern
- Improve work conditions by requiring fewer tool changes
